***Cumbria's Woodlands; past, present and future***

Cumbria Woodlands turns 20 in September 2011, and to celebrate we will be holding a special woodland event on Wednesday 14th September. It will be an afternoon looking at a variety of important subjects within the world of woodlands in Cumbria.

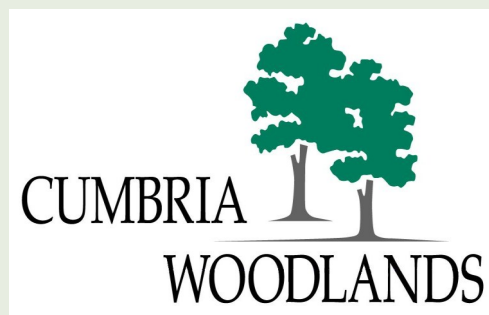

This forum will provide you with the opportunity to listen to a variety of speakers discussing everything from coppicing and carbon to skills for foresters, and what the future looks like for Cumbria's woodlands.

An awards ceremony presented by [Paul Rose](#) of the BBC TV series "Britain's Secret Seas" will be held on the day to recognise the achievements of those involved in the forestry sector in Cumbria, and we are looking for nominations. View the accompanying flyer for details!
